A closer look.

Use the photo references beside each view to identify your selection. Every drum, skin, frame and bag design shown in this catalogue is also included in the website collection.

Before ordering

For drums, confirm diameter, grip, materials and sound. For skins, confirm species, preparation, thickness, usable dimensions and mounting allowance. For bags, confirm internal dimensions, padding and final construction. Check price, availability and included accessories.

A moment of listening

Make one gentle sound. Listen until it fades. Notice the space before the next beat. This is a contemporary reflection practice, not a teaching from a specific tradition.
